- Acknowledgement on our Facebook
- A certificate for you to display

### ABOUT US

Worldwide, Habitat for Humanity has helped more than 29 million people build or improve the place they call home, along with strength, stability and independence to build better lives.

In South Australia, we assisted emergency housing for homeless, individuals & families seeking shelter to achieve improved personal and economic wellbeing.

We have assisted families and individuals facing physical and financial challenges to remain safely in their homes through minor home repairs and landscaping.

We have also assisted Cottage for Country to establish a new accommodation in Adelaide for disadvantaged people from country communities needing medical / community services.
